# WEED STOP MEMBRANE

## Landscaping/ Weed Suppressant Membrane

### Description

A 50g landscaping and weed suppressant membrane.

#### Description

Bond It Weed Stop Membrane is a high quality spun bond polyester membrane that is designed to provide a durable, porous, weed suppressant membrane, for use in areas such as; decorative bark and gravel or for lining planters. Weed Stop Membrane is a durable and porous product which allows water and nutrients to penetrate whilst suppressing weed growth. Weed Stop Membrane will keep the ground moist and protect from extreme temperatures.

- ◆ Durable 50 gsm
- ◆ UV Stable
- ◆ Non-woven
- ◆ Superb Drainage Properties
- ◆ 5 Year Guarantee

#### Instructions

Prepare the ground removing all weeds and rake the top soil to a smooth surface. Roll out the membrane and cut to size. Ensure a minimum of 75mm (3") overlap in large areas where multiple strips are required. Secure the membrane and overlaps with ground pegs at regular intervals. When planting; cut a cross in the membrane and pin back in place. Cover with at least 50mm (2") of bark, mulch of gravel. The fabric can be cut around existing trees, plants or hedges etc.

#### Limitations

Weed Stop Membrane should not be used under patios, driveways or block paving. Weed Stop should not be used under trafficked areas such as gravel paths; use Landscape Membrane.

#### Specification

|                            |                    |
|----------------------------|--------------------|
| Weight                     | 50g/m <sup>2</sup> |
| MD Tensile Strength N/5cm  | 145                |
| CD Tensile Strength N/5 cm | 95                 |
| MD Elongation              | 110%               |
| CD Elongation              | 120%               |
