

NO CRACK CAULK

NON-CRACKING PAINTABLE SEALANT

A high quality, water-resistant, water-based sealant with non-cracking formulation.

Formulated to prevent craze cracking and discolouration of paint when painted with most water based and synthetic paints. Has good adhesion to most building materials. Can be over-painted, stained or varnished for colour matching purposes within 1 hour. Highly flexible, with a joint movement capability up to 12.5% (nearly double that of standard caulks). Contains a fungicide which helps retard mould growth.

Benefits:

- Prevents Craze Cracking When Painted
- Highly Flexible - Paintable within 1 Hour
- Excellent Adhesion
- Good Weathering
- Internal and External Applications
- CE Approved: conforms to BS EN 15651-1.

Specification Summary

Tooling Time	Tool within 5 minutes
Skinning Time @20°C	After 20 minutes
Full Cure Time	24 hours depending on bead thickness and temperature
Waiting Time Before Painting	1 hour for emulsion paints 24 hours for solvent based paints
Sag	None
Movement Accommodation	12.5%
UV and Weather Resistance	Good
Water Resistance	Good
Polluted Environments	Good
Shelf Life	24 months
